

COMPARISONS OF RECORDS OF UNITED STATES AND ENGLISH ATHLETES FAVOR AMERICANS.

AMERICAN ATHLETES WHO WILL MEET THE TEAMS FROM OXFORD AND CAMBRIDGE AT BERKELEY OVAL, NEW YORK, IN THE INTERNATIONAL GAMES SEPTEMBER 25.

E. J. CLAPP,
Yale Hurdler.R. SHELDON,
Yale Hammer Thrower.J. S. SPRAKER,
Yale High and Broad Jumper.J. G. WILLIS,
Captain Harvard Track Team.D. W. FRANCHOT,
Yale Distance Runner.DIXON BOARDMAN,
Yale Quarter-Miler.

Comparisons of records made by athletes who will represent the United States and England in the international games at New York Wednesday point to a complete victory for the American team. While the Yankee athletes may not win every contest, as they did in the international games five years ago, it seems practically certain that they will capture more than a majority of events.

Members of the Oxford-Cambridge team participated in the games of the Montreal Athletic Club ten days ago, and in each event they entered they carried off the prize. Practice in these games and the length of time they have been on this side of the water ought to acclimatize them sufficiently to put them at their best; yet, at that, the Americans appear to easily hold them

safe. To begin with, the Americans have a clutch on the hammer-throw and broad jump. For some reason the English will never take up a branch of sport at which they appear to be held safe, and no practical record is reported with the hammer among the Britons. Boal of Harvard and Sheldon of Yale should have this event at their mercy.

In the broad jump, Cornish is thought to be a winner by the English critics, because he has jumped further than any of the contestants entered. This would be a good basis to go on, if any of the jumps were sufficiently long to win an international contest, but all records held by Wednesday's entries are far below the mark that will be set in the games. It is safe to say that 23 feet will be passed in actual contest, while the best Cornish has done is 22

feet 5 inches. The English measure a jump from the take-off to the point where the jumper's feet come to rest; the Americans measure the jump from the take-off to the point where the jumper's feet first touch the ground, as there is generally some sliding done at the end of each jump, an allowance of about two and one-half inches should be made in favor of the Americans when comparing the records. Cornish's record by our measurement would be about 22 feet 2 1/2 inches.

Spraker's record at present is 22 feet 3 1/2 inches, and the Yale man would certainly not have been put on the American team unless he could do his 23 feet. It is said that Spraker has never been fully extended in the broad jump, and if this is so, the event is as good as won.

Winners from the Oxford-Cambridge team

at Montreal last week made the following time and records: 100-yard dash—Won by A. E. Hind, Cambridge; time 10 1/2 seconds. 220-yard dash—Won by J. C. Churchill, Cambridge; time 21 1/2 seconds. 440-yard dash—Won by R. W. Barclay, Cambridge; time 51 1/2 seconds. 880-yard dash—Won by the Reverend H. W. Workman, Cambridge; time 1:58 1/2. One-mile run—Won by F. G. Cockshott, Cambridge; time 4:28 1/2. Running high jump—Won by W. E. B. Henderson, Oxford; 5 feet 7 inches. 120-yard hurdle—Won by E. Alcock, Cambridge; time 1:35 1/2. The English team competed from scratch in each event. The mark set by Workman in the half-mile is but a fraction of a second behind the world's record for the distance. Time and records made in corresponding

events in the Harvard-Yale games at New Haven, May 11, at which the best athletes of each college contested, follow: 100-yard dash—N. H. Hargreave, Yale; time 19 seconds. 220-yard dash—N. H. Hargreave, Yale; time 31 1/2 seconds. 440-yard dash—Won by W. G. Clark, Harvard; time 51 1/2 seconds. 880-yard dash—S. E. Behr, Harvard; time 1:25 1/2. One-mile run—H. B. Clark, Harvard; time 4:28 1/2. Running high jump—J. S. Spraker, Yale; 6 feet 5 1/2 inches. 120-yard hurdle—J. H. Converse, Harvard; time 1:45 1/2 seconds.

Giving the Britons full credit for their performances, it must be admitted that the Americans have far the best of it on this comparison. On May 11, when the Harvard-

Yale games were held, the temperature was 50 degrees, a cold rain was falling, a raw wind blew across the field and the distance track was an inch deep in water in some places. In the field events the ground was so slippery that sure foothold was out of the question.

E. J. Clapp, who will represent America in the hurdles, entered the 120-yard hurdle race and in bad condition. The best he could do was second, yet he finished a yard behind Converse, who equaled the world's record of two years ago in the event, and whose time is but 2 1/2 of a second behind the record at present.

Hargreave of Yale, in spite of the adverse conditions, is the first Yale man who ran below 22 seconds in the 220 in competition, and made the fastest time in the two events that any Yale athlete has done on one occasion. Boardman of Yale, who will run in

the 440, was sick on the occasion of the games and did not compete. He is regarded as a far better man than Clark at the distance. Other performances in the Harvard-Yale games were as follows: 220-yard hurdles—J. G. Willis, Harvard; 3 seconds. Two-mile run—R. G. Teel, Yale; 9:55 1/2. Broad jump—J. H. Shirk, Harvard; 11 feet 11 inches. Pole vault—J. H. Hord, H. H. Pease and D. P. Thompson, Yale; all made 10 feet 11 inches. Sixteen-pound hammer—G. E. Stillman, Yale; 111 feet 8 inches. Sixteen-pound shot—R. Sheldon, Yale; 44 feet 8 1/2 inches. Sheldon competed in the hammer throw, but could not handle the hammer and keep his foothold on the slippery ground.

PROSPECTS AT HARVARD, PENNSYLVANIA AND YALE.

Much New Material on Hand at Each College—Harvard Shows Little Enthusiasm Over This Season's Chances—Pennsylvania Has Some Good Men at Practice.

Cheering accounts of the outlook for the Harvard football team sent out last week have been discontinued, and absence of enthusiasm is now noticeable in the reports from the leading Eastern colleges. Especially is this the case with Harvard and Pennsylvania, and while there is still time for a crack team to be developed, few leading Eastern colleges appear enthusiastic over their chances with the present material.

At Harvard, to judge from press reports, the outlook seems particularly bad. So much so that students at that college are comforting themselves with the reflection that some of the best Harvard teams have been developed in the past from distinctly mediocre material. When this is all the encouragement found in the situation, the outlook must be indeed depressing.

One report from Cambridge is to the effect that Harvard faces the bluest outlook since the early nineties. Besides losing the best of a none too able set of players, she finds herself devoid of a system whose effectiveness rivals that of Yale, Pennsylvania and Columbia, the three hardest teams they will have to meet.

Those in charge at Cambridge realize that by the system of team play she sprung last fall, Yale jumped ten years in advance of the times in football strategy. From bitter experience in the past the Harvard people recognize that Yale is never contented to rest with what she has accomplished, but is always trying to get something else up her sleeve. If Yale can keep up the standard, therefore, Harvard is up against a hard proposition.

Since his appointment as head coach, Reid's chief care has been directed toward evolving a system of play which would stand the test, and the problem is said to be still far from solution. Captain Campbell and James Knox, the last mentioned of whom has had charge of the Harvard freshman for the last three years, are endeavoring to help Coach Reid in seeing his way more clearly, but their progress is as yet doubtful.

There will be plenty of opportunity to make reputations for developing raw material this year on the Harvard team, for about the only seasoned players which would stand the test, and the problem is said to be still far from solution. Captain Campbell and James Knox, the last mentioned of whom has had charge of the Harvard freshman for the last three years, are endeavoring to help Coach Reid in seeing his way more clearly, but their progress is as yet doubtful.

Harvard may be taking an unnecessarily gloomy view of the situation this year, as the other Eastern colleges have all been in similar condition they were last year as regards finished material, and Harvard may yet develop its raw men into something extraordinary in the team line.

Considering the fact that some of the new men classed as raw material on the minor teams, it appears as if favorable reports may be expected as the season advances. It is conceded that these new men would not class with former players who have appeared at this season of the year, but there may easily be a rounding into form which will be surprising.

Pennsylvania also seems to be consoling itself this year with the thought that things might be worse, but it looks as if this was about the worst case on the part of the Penn coach. Certain it is that Woodruff has a lot of material from last year's scrub team which he should know enough about the game to be readily developed into a strong body.

Mike Bucknell, substitute and on last year's team, is back and is recognized as a first-class player. Jordan, Brenton, Broderson, Magee and Westel have all been steadily at practice and all were members of last year's scrub team. Jordan, Brenton and Magee are considered likely candidates for the "varsity."

Kirkpatrick, Rich, Hutchinson and Brandenberg are new men who have shown up well. Magee played half-back last year in many of the minor games at Pennsylvania, and was generally considered a member of the "varsity" team. Brenton was one of the strongest of last year's scrub team. He played left tackle on the first team on several occasions, and was rated a good man.

Last Friday a "varsity" eleven was chosen from the candidates now on hand, and the team was put through the various Pennsylvania plays under the direction of Woodruff. The line-up was as follows: Left end, Ludes of last year's scrub team; center, Jordan of the scrub team; right guard, Anderson, a new man; right tackle, Donaldson of Penn. Coach; right end, Bennett, substitute last year; first base, quarter-back, Howard of the scrub team; left half-back, back of the scrub team; right half-back,

Metzgar of the scrub team; full back, Davidson of last year's first team. In the practice Woodruff used a variation of guards back with half backs in the line, which was first used in 1896 and was found effective in many of last year's games. The new men are reported to have shown up well and Anderson, the new man, is said to be assured of a place on the team if he can keep up his work. Davidson is regarded as a certainty for full back and Snook is expected to find a position in the backfield.

Besides using the guards back in the practice last week, Woodruff called the tackles back and put them through the different formations. All the candidates were put through the usual kicking and catching practice, which is a specialty of Woodruff's training.

Assistant Coach Sam Goodman said, after the first practice: "The prospects are not so discouraging as is generally believed. The candidates are showing up well, and I see no reason why Pennsylvania should not be represented by a good team."

Such comments are not overenthusiastic, but it is believed that the team will prove a surprise.

Yale leaders in the football world are going placidly about, saying little as yet concerning the chances of the team. This is so foreign to Yale's usual custom that it is probably merely temporary silence. Once the bunch that Yale has scheduled for practice gets out and works, there will certainly be reports of a lively team sent in.

On paper Yale has the best chances of the year. Captain Gould has arranged the collection of players, and is generally considered the college as follows: Ends, H. E. Benham, A. D. Ferguson, J. R. Swan, Charles D. Rafferty, tackle, H. C. J. Hamlin, C. F. O. Neal and W. B. Francis; guards, Richard Sheldon, F. H. Glass; center, H. H. O'Leary; full back, H. H. O'Leary, D. S. Sautter, W. H. Hubbard, J. W. Burdick, L. M. Johnston, E. A. Donahue and J. C. Brady; half back, J. C. Vanderpool, D. R. Ward, F. L. Wilhelm, R. N. Ingram and C. A. Weymouth; E. Easton, E. L. Fox, B. Chadwick and R. H. Cuffin; O'Leary, Rafferty, and Sheldon, guard; O'Leary, center, and Chadwick, half back, were on the team last year.

None of these are noted as punters, but with this material it appears as if Yale prospects were fairly good, considering the state of the other colleges. Walter Camp will coach the team this year.

One of the features of this season's Cardinals, in fact, should be the work of Mr. Nikiter Shonchuk, an Eskimau from the Kadiak Islands, near Alaska. He joined the college last year, and took to football as naturally as if he were an New Haven instead of in a place where an Eskimau would be regarded as a curiosity.

Shonchuk's work with the Cardinals has been so exceptionally good that it is not surprising that he has been named as a candidate for the "varsity" team. He is 19 years old, weighs 160 pounds and is 5 feet 5 inches tall.

Schedules of various teams in the Middle West follow: October 5—State Normal at Iowa City. October 10—Drake at Des Moines. October 12—Minnesota at Minneapolis. October 13—Minnesota at Iowa City. October 14—Minnesota at Chicago. October 15—Michigan at Chicago. October 16—Case at Ann Arbor. October 17—Michigan at Ann Arbor. October 18—Northwestern at Ann Arbor. October 19—Michigan at Ann Arbor. October 20—Carleton at Detroit. October 21—Michigan at Ann Arbor. October 22—Beloit at Ann Arbor. October 23—Stanford at Los Angeles. October 24—Stanford at California at San Francisco.

Northwestern's schedule: September 15—Minnesota at Minneapolis. September 20—Minnesota at Carleton College. October 1—Minnesota at Chicago. October 5—Minnesota at Chicago. October 10—Minnesota at Chicago. October 15—Minnesota at Chicago. October 20—Minnesota at Chicago. October 25—Minnesota at Chicago. October 30—Minnesota at Chicago. November 5—Minnesota at Chicago. November 10—Minnesota at Chicago. November 15—Minnesota at Chicago. November 20—Minnesota at Chicago. November 25—Minnesota at Chicago. November 30—Minnesota at Chicago.

October 1—Minnesota at Minneapolis. October 5—Minnesota at Minneapolis. October 10—Minnesota at Minneapolis. October 15—Minnesota at Minneapolis. October 20—Minnesota at Minneapolis. October 25—Minnesota at Minneapolis. October 30—Minnesota at Minneapolis. November 5—Minnesota at Minneapolis. November 10—Minnesota at Minneapolis. November 15—Minnesota at Minneapolis. November 20—Minnesota at Minneapolis. November 25—Minnesota at Minneapolis. November 30—Minnesota at Minneapolis.

ST. LOUIS UNIVERSITY FOOTBALL TEAM.

In the upper row, reading from left to right, are: Miers, Shavacher, Pollman, Lind, Mooney, Mickey. Second row: Hoffman, Hoolan, Johnson, Captain McLean, Ewing, Stabel. First row: Dillon, Morrie, McKean.

November 2—Minnesota vs. Northwestern, at Chicago. November 3—Minnesota vs. Illinois, at Cham-paign. Schedule of Kansas City Medicals: September 28—Haskell, at Lawrence, or Wil-son. October 5—Washington at Topeka. October 12—Chicago at Kansas City. October 19—Washington University, at St. Louis. November 1—Emporia Normal, at Emporia. November 18—Ottawa, at Ottawa. November 25—Chicago at Chicago. November 2—Lake Forest at Notre Dame, November 16—Indiana at Notre Dame. November 23—Purdue at Notre Dame.

November 30—Purdue at Notre Dame. November 1—Emporia Normal, at Emporia. November 18—Ottawa, at Ottawa. November 25—Chicago at Chicago. November 2—Lake Forest at Notre Dame, November 16—Indiana at Notre Dame. November 23—Purdue at Notre Dame.

November 30—Purdue at Notre Dame. November 1—Emporia Normal, at Emporia. November 18—Ottawa, at Ottawa. November 25—Chicago at Chicago. November 2—Lake Forest at Notre Dame, November 16—Indiana at Notre Dame. November 23—Purdue at Notre Dame.

November 30—Purdue at Notre Dame. November 1—Emporia Normal, at Emporia. November 18—Ottawa, at Ottawa. November 25—Chicago at Chicago. November 2—Lake Forest at Notre Dame, November 16—Indiana at Notre Dame. November 23—Purdue at Notre Dame.

Notes of harness horses.

Admiral Dewey Will Surely Start in the Kentucky Trotting Horse Breeders' Association.

Special Correspondence of The Sunday Republic. Lexington, Ky., Sept. 20.—Secretary Horace Wilson of the Kentucky Trotting Horse Breeders' Association has just received word that Admiral Dewey, 2:14 1/2, the great 3-year-old son of Bingen and Nancy Hanks, will be here for the meeting at the Jockey Club track, which is situated on the Hudson river, between the city and the country, and is one of the most attractive and profitable places in the world for the winter months.

Charles F. Price, general manager of the New York Jockey Club, authorized the important announcement that two of the most successful and profitable races each week will be given during the winter months at the Jockey Club track, which is situated on the Hudson river, between the city and the country, and is one of the most attractive and profitable places in the world for the winter months.
